

About MINDSOURCE

MINDSOURCE serves as the umbrella entity to: (1) manage the Colorado Traumatic Brain Injury Trust Fund; (2) provide training and technical assistance regarding brain injury for public and private entities; and (3) manage the federal traumatic brain injury grant.

Goals & Strategies

To develop the State Plan, MINDSOURCE created an Advisory Board to guide the work. Advisory Board members established goals to create and strengthen a system of services and supports that maximizes the independence, well-being, and health of people with brain injuries:

Goals	Strategies
Strengthen the infrastructure and capacity of MINDSOURCE and its partners to identify and disseminate info about resources, services and supports	Identify current funding streams and diversify and grow funding streams Establish common language and definitions for brain injuries Ensure community providers have the tools to support all individuals with a brain injury
Offer a user-friendly and non-redundant system of brain injury supports for survivors, family members and professionals	Ensure individuals have support across the life span of brain injuries Raise public awareness of brain injury and brain injury services
Improve wrap-around services for individuals with brain injury	Incorporate the concept of self-advocacy for individuals with brain injuries and caregivers Improve access to Regional Accountable Entities (RAEs) and other, non-Medicaid behavioral service providers. Address meaningful (non-workforce) productivity for individuals with brain injury Enhance employment supports through the provision of competitive integrated employment (CIE) for those who want to participate in the workforce (with information about benefits, options for employment such as self-employment, re-training, etc.)
