

2023 Community Grant Q&A

Can a grant include a stipend?

Stipends are not allowed.

Can a program that was previously funded be awarded a second grant?

While the Trust Fund Board has typically tried to fund a wide range of projects, they would consider funding a project a second time. Previously awarded grantees are welcome to apply again.

Can participation at a conference be paid for?

If it's a brain injury related conference, costs for attending a conference can be included in a grant request.

Can a grant request the creation and distribution of informational flyers?

Yes.

Can MINDSOURCE assist in getting materials translated into another language?

We can recommend translation services. The cost of translation can be included in the grant budget.

If a line item in the budget is not used, can the funds be redirected to other approved costs?

Yes. Any changes would need to stay within the scope and intent of the grant application. Those changes must be approved by MINDSOURCE before any expenditures are made.

What type of support is required to meet the in-kind requirement?

Any financial support from an entity in addition to MINDSOURCE can qualify as in-kind funding. This could be other grants, employee hours, or overhead costs not covered by the MINDSOURCE grant.
